This is to certify that Mr. Pritam Kumar Prasad of Vijaygarh Jyotish Ray College, Kolkata has successfully completed his dissertation work. The title of his thesis is "Interaction of complex nanoparticles with biological systems." He has performed the following techniques:

1. Autoclave, Centrifuge machine, Ultrasonicator, ELISA, Spectrophotometer, VITECK machine, UV-Vis.
2. Basic of bacterial culture ; Bacterial growth curve, Colony forming Unit, Cup plate assay, Protein isolation, Enzyme assay, Gram staining, Acid fast staining.

Pritam's performance has been highly satisfactory. He is among the top 1% of all the summer students trained under me. He'll be a great asset to research/industrial organization.

I wish him all the best for her future endeavors.

Sincerely,

16-11-2021

Prof. Arunava Goswami,
Biological Sciences Division,
Indian Statistical Institute,

203, B. T. Road, Kolkata.
